CLASSES WITH RON COLLINS

FITTING AND WORKING WITH KNITS

Tuesday & Wednesday April 8th & 9th, 10:30 am - 4:30 pm

\$350.00 + HST + Kit fee: \$20.00

Uncover great techniques for this knit know-how-to workshop. Bring your favorite knit pattern (yoga pants, knit tops, dress, and zip up hoodie or whatever your heart desires) and fabric to this hands-on workshop. The first day Ron will cover tips on layout, marking, cutting, interfacing, thread and appropriate needle sizes and types. This will be followed by a hands-on segment on making samples on seam and hem finishes, stabilizing necklines, and shoulder seams; plus, cool seam finishes for armholes and necklines, closures and more (all samples that you take home). The second and third day we will start on pattern sizing, adjustments, and construction. Learn how to make changes to your pattern for a large upper arm, sloping shoulders, high or low bust, sway back, flat seat or large seat, plus more. Come sew the fabric of choice for most people... comfortable to wear, great for traveling, a great staple in your wardrobe.

ULTIMATE SEWING RETREAT

Thursday - Saturday April 10th, 11th & 12th, 10:30 am - 4:30 pm

\$525.00 + HST

Ron Collins is a well-known international sewing expert, designer for Vogue Patterns, teacher, writer, and co-host of Web TV's Power Sewing. He is back for a limited engagement! Is fitting your nemesis? Bring your favourite patterns and muslins and let's start fitting. Go home with your pattern, adjust the pattern, cut out the garment from scrap fabric or muslin, sew the fitting shell, and then refine the fit and transfer your alterations to your pattern. Bring patterns for jackets, pants, tops, jeans, outerwear, etc. Choose whatever pattern you want and whatever fabric suits the pattern, such as in woven, stretch woven or knits. With Ron by your side, you'll be able to overcome those trouble spots in fitting.

TIME TO ZIP IT UP

Monday April 14th, 10:30 am - 4:30 pm

\$175.00 + HST Kit fee: \$20.00

Having a hard time with your zipper? Centered zipper, fly front, lapped zipper, exposed zipper pocket, and invisible zipper: these five zipper techniques are a must for any clothing construction. Learn the centered zipper with a foolproof technique that will never shift again when inserting it. See how to design fly front zippers with a deep placket to avoid the zipper or zipper pull from showing on the center front of your pants or jeans, along with adding in the zipper shield. Lapped zipper is where all the construction is to one side and is always great for most dresses, pants, and skirts. An invisible zipper is not as hard to sew as you might think; the secret is the pressing of the zipper before sewing. Exposed zipper pocket is great for outerwear jackets; see how the pocket lining makes the pocket opening for easy construction.

THE OTHER ULTIMATE PULL ON JEAN WORKSHOP

Tuesday & Wednesday April 15th & 16th,

10:30 am - 4:30 pm

\$350.00 + HST

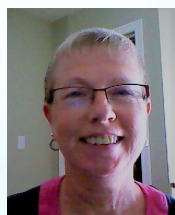

If you have not sewed fitted pants before this is the workshop to start out with!!! The Jalie "Eleonore" is a great stretch pull-on jean (long or cropped) with an extra wide waistband. It has the details of a jean yoke and back patch pockets, with the details of a faux front pocket and fly front which is a sharp detail. Students will try on the jeans that have been made up in a stretch woven denim with 20% stretch on the cross grain. Ron has sewn the 15 different sizes (4-22) in the "Eleonore" for you to try, so all necessary pattern fitting adjustments are made to the pattern before you cut the fabric. Ron then will identify your fitting problems and give you the necessary alterations (flat seat, protruding seat, low seat, knock/bowed legs, gaping waistband, length, etc.) for your jeans before cutting into your pattern.

PERFECTING BUTTONHOLES

Thursday April 17th, 10:30 am - 4:30 pm

\$150.00 + HST + Kit fee: \$10.00

So, your funky-looking buttonholes are ruining your constructed garments!!! See what makes a successful buttonhole on your sewing machine, using the proper thread, needle sizes and needle types, stabilizer, and seam sealant. Learn how to do a corded buttonhole for bulky fabrics, great for a larger button that will stretch out your buttonhole over time. Bound buttonholes: if you ever did these buttonholes and did not like the finished results, Ron would show how he used a combination of bound and machine buttonholes, which will beat anything in ready-to-wear. You love the creative look of an in-seam buttonhole, which can be added horizontally or vertically to a man's or woman's shirt. No need to fear buttonholes any longer.
