CLASSES WITH RON COLLINS

ULTIMATE SEWING RETREAT

Thursday - Saturday October 3rd - 5th, 10:30 am - 4:30 pm
\$525.00 + HST

Ron Collins is a well-known international sewing expert: designer for Vogue Patterns, teacher, writer and co-host of Web TV's Power Sewing. He is back for a limited engagement! Is fitting your nemesis? Bring your favourite patterns and muslins and let's start fitting. Go home with your pattern, adjust the pattern, cut out the garment from scrap fabric or muslin, sew the fitting shell and then refine the fit and transfer your alterations to your pattern. Bring patterns for jackets, pants, tops, jeans, outerwear etc. Choose whatever pattern you want and whatever fabric suits the pattern, such as in woven, stretch woven or knits. With Ron by your side, you'll be able to overcome those trouble spots in fitting.

TIME TO ZIP IT UP

Tuesday October 8th, 10:30 am - 4:30 pm
\$175.00 + HST Kit fee: \$20.00

Having a hard time with your zipper? Centered zipper, fly front, lapped zipper, exposed zipper pocket and invisible zipper: these five zipper techniques are a must for any clothes construction. Learn the centered zipper with a fool proof technique that will never shift again when inserting it. See how to design fly front zippers with a deep placket to avoid the zipper or zipper pull from showing on the center front of your pants or jeans along with adding in the zipper shield. Lapped zipper is where all the construction is to one side and is always great for most dresses, pants, and skirts. An invisible zipper is not as hard to sew as you might think; the secret is the pressing of the zipper before sewing. Exposed zipper pocket is great for outerwear jackets; see how the pocket lining makes the pocket opening for easy construction.

TAILORED MEN'S SHIRT OR WOMEN'S BLOUSE

Wednesday - Saturday October 9th - 12th, 10:30 am - 4:30 pm \$700.00 + HST

Ron is known for his "one of a kind" shirts. Come and do the latest construction techniques not found in pattern instructions and learn how to modify your pattern for a perfect fit. Learn how to fit for a narrow or sloping shoulder, high or low bust, large upper arm, sway back, broad or narrow back plus more. Learn how to do ready to wear tricks on half bulk collar points and collar bands, clean edge facings, non-stretch out bias cut and double yolks, one piece sleeve plackets, cool seam finishes, button holes and professional results working with fusible interfacings and other stylish details.

PATTERN ALTERATIONS & BODY MEASUREMENTS FOR THE RIGHT FIT

Monday October 7th, 10:30 am - 4:30 pm \$175.00 + HST Kit fee: \$30.00

In this hands-on workshop you will learn how to identify the fitting problems and how to solve them. Ron will show you how to correct fitting problems regarding raising or lowering bust fullness in a princess seam, adding in a dart when a pattern requires one, moving a horizontal underarm dart to a vertical waist dart, altering for a small bust and increasing full bust for a princess seam. Along with pant alterations for knock and bowed legs, full and protruding seat, flat seat and many more. We will also take 28 body measurements: high bust, low bust, shoulder width, sleeve length, back waist length, pant and skirt length.... plus, more... a total of 28 body measurements. Every student will have an alteration package to take home showing all the alterations done. Ron will give you the inside answer on what pattern companies run larger and which ones tend to run true to measurements. He will also explain how much wearing ease you need in all garments from close fitting, fitted, semi fitted, loose fitted and very loose fitted. Take the guesswork out of trying to choose what size garment by finding the "finished garment measurements" and not using the sizes on the back of the pattern envelope. See the difference in sizing charts in major pattern companies and how to choose the right size for you and how to avoid disappointment in fitting.
